I write further to my letter regarding a moratorium on further waste incinerators which I am copying to colleagues in a similar position to me.

I would request an early response to my letter and a date for a meeting. When we meet, I would like to bring some of our 32 Conservative colleagues who are in a similar constituency position. In particular, I would like to discuss a possible remedy involving the fiscal disincentivising of so-called Energy from Waste plants similar to the landfill tax that will encourage waste management that respects the waste hierarchy.

RT HON DR ANDREW MURRISON MP
